

December 5, 2010

We are pleased to announce that the White House's Office of Science and Technology Policy is sending Dr. Cyrus Wadia to speak at TREM11. Dr. Wadia will join such speakers as Chile's Minister of Mining, Laurence Golborne.

The conference, which will take place on March 22-23, 2011 in Washington, DC is the event in which policy makers from the US Congress and Administration meet with executives from technology, energy, defense, finance and mining industries to discuss the way America imports, produces and uses technology metals.

Dr. Wadia holds a dual appointment as Co-Director of Cleantech to Market at the Haas School of Business (UC Berkeley) and Guest Scientist at Lawrence Berkeley National Laboratory (LBNL)
